OPTICALF™ HELPS WITH

- Great value for money
- Raise healthy calves
- Calves love the taste

WHY USE OPTICALF™?

- Calves love the taste
- For minor cases of calf diarrhoea
- BioGro Certified input for organics

ACTIVE INGREDIENT

- 100% natural NZ Aluminosilicate
- May contain crystalline silica in a respirable form

HEALTH AND SAFETY

Material safety data sheets are available on request.

WHAT IS OPTICALF™?

- OptiCalf™ is an Aluminosilicate with a large surface area providing a large surface to gut interface. This allows for rapid absorption of water in the intestines, thereby aiding in the treatment of minor cases of diarrhoea.*

**Scientific references available upon request.
OptiCalf™ will NOT treat dehydration.*

**If OptiCalf™ fails to alleviate the condition being treated, seek veterinary advice.*

DIRECTIONS FOR USE

- For calves with minor cases of diarrhoea provide 20gm of OptiCalf™ per calf, per day into feed troughs.
- OptiCalf™ is suitable for use without veterinary advice only in the treatment of minor cases of diarrhoea. If OptiCalf™ fails to alleviate the condition being treated, seek veterinary advice.
- OptiCalf™ will not treat dehydration, ensure calves have access to plenty of fresh water.

**AVAILABLE FROM YOUR
RURAL RETAILER!**
